📍 Rahim Yar Khan, Punjab, Pakistan

PROFESSIONAL SUMMARY

Results-driven Flutter Developer and AI enthusiast currently pursuing a Bachelor's in Artificial Intelligence at KFUEIT. Experienced in building production-grade cross-platform mobile applications using Flutter, Firebase, and GetX. Demonstrated expertise through a hands-on internship and real-world projects including role-based task management systems and e-commerce apps. Holds multiple certifications in AI/Cloud technologies and actively builds AI-integrated solutions. Committed to clean architecture, scalable code, and delivering excellent user experiences.

WORK EXPERIENCE

Flutter Developer Intern | VirtueNetz, Rahim Yar Khan

Apr 2025 – Jul 2025

- Contributed to the development of an internal task management system used company-wide.
- Implemented role-based user authentication (Admin & User panels) using Firebase Auth.
- Integrated Firebase Firestore for real-time data sync and Cloudinary for image/file storage.
- Built Syncfusion Charts dashboards for project progress and user analytics tracking.
- Developed push notification features using Firebase Cloud Functions for task/project events.
- Followed clean architecture principles and contributed to code reviews within the team.

PROJECTS

Archi AI — AI-Powered Architectural Design Generator *Flutter · Python/FastAPI · Stable Diffusion · Firebase*

- Developed a cross-platform mobile app that generates professional architectural house designs from user inputs (style, rooms, area) using generative AI models (Stable Diffusion / DALL-E API).
- Built an intuitive UI allowing users to customize design parameters and view 2D floor plan visualizations alongside AI-rendered exterior/interior design images.
- Integrated Firebase for user authentication, project saving, and cloud-based design history.
- Implemented a Python/FastAPI backend to handle AI model inference requests and image post-processing.
- Added export features for sharing or downloading generated designs as high-resolution images.

Task Management System *Flutter · Firebase · Syncfusion · Cloudinary*

- Dual-panel system (Admin & User) with Firebase Authentication and Firestore real-time database.
- Admin panel: create/update/delete projects & tasks, assign users, monitor progress via Syncfusion charts.
- User panel: view assigned work, update task status, track due dates, and receive instant push notifications.
- Cloud Functions power real-time alerts for assignments, removals, and status updates.

Stylish — eCommerce App *Flutter · Firebase · GetX*

- Modern shopping app with Firebase Auth (Email & Google Sign-In) and real-time session handling.
- Integrated GetX for state management, routing, and dependency injection; clean, responsive UI/UX.

Donation Platform (In Progress) *Flutter · Firebase · Multi-Role*

- Multi-role system with three separate app modules: Admin, Donor, and Aid Worker.
- Admins manage campaigns; aid workers handle field logistics; donors track real-time impact.
- Focused on secure role-based access control, scalable Firestore architecture, and polished UI.

To-Do App *Flutter · GetX · Local Storage*

- Minimal, responsive to-do list app with persistent offline storage using SharedPreferences/GetStorage.
- Applied GetX for reactive state management and clean separation of concerns.

EDUCATION

Bachelor of Science in Artificial Intelligence
Khwaja Fareed University of Engineering & Information Technology (KFUEIT)

2023 – Present

CERTIFICATIONS & TRAINING

▶ Microsoft Certified: Azure AI Fundamentals (AI-900) — Microsoft	May 2, 2026
▶ Generative AI Application Developer Certificate — Top Performer — UETIANS Lahore Endowment Foundation (NCEAC-HEC, Cohort 3)	May 30, 2026
▶ One Million Prompters — AI Prompt Engineering — Dubai Future Foundation · Dubai Centre for AI	2025
▶ Innovating with Google Cloud AI — Google Cloud via Simplilearn SkillUp Code: 9760711	Jan 25, 2026
▶ Soft Skills Training (7 Hours) — OEC & ICMPD — Certificate No. ad11b646	Jan 31, 2026
▶ Flutter App Development — Dev Castle Software House	2024
▶ Flutter App Development (Internship Certificate) — VirtueNetz, Rahim Yar Khan	2025
▶ AWS Solutions Architect – Job Simulation — AWS via Virtual Internship Platform	2025

TECHNICAL SKILLS

Mobile Dev	Flutter, Dart, GetX, Provider, Clean Architecture, Responsive UI
Backend / Cloud	Firebase (Auth, Firestore, Cloud Functions), Cloudinary, AWS (S3, EC2), Google Cloud AI
AI / ML	Generative AI, Prompt Engineering, Stable Diffusion, DALL-E API, Azure AI Services
Data & Analytics	Syncfusion Charts, REST APIs, JSON, Real-time Databases
Tools & Dev	Git & GitHub, VS Code, Android Studio, Postman, Figma
Storage	SharedPreferences, Get_Storage, SQLite

SOFT SKILLS & LANGUAGES

▶ Team Collaboration & Communication	▶ Urdu — Native
▶ Problem-Solving & Critical Thinking	▶ English — Professional Proficiency
▶ Time Management & Accountability	▶ Adaptability & Continuous Learning
